Re: Jones Tract Perimeter Fencing Specifications

Dear Mr. VanTil,

The following specifications are for our typical perimeter fencing that KBHome is proposing along T.H. Johnson Dr., FM 397, and along both sides of our main collector street.

Perimeter Fencing

- 6' dog-eared wood privacy fence, exterior of fence to be stained.
- Metal posts set in concrete.
- 3 pressure treated rails.
- Fencing to be "boxed-out" to incorporate landscaping.

Masonry Columns

- Spaced every 100 feet.
- Approximately 7' tall with decorative cap
- Approximately 2' X 2' wide.

If you have any questions or need additional information, please call me at (512) 795-6193.
Thanks.

Sincerely,

A handwritten signature in cursive script that reads "Michael Slack".
